BFTF 2715 SSIM

14.8 cu.ft (420 L) Total Gross Volume
NeoFrost™ Cooling

Fridge
- 14.8 cuft (420 L) net fresh food volume
- Chrome coated wine rack
- Bottle holder
- Illumination with white LED
- 3 safety glass shelves
- 4 door racks
- 2 egg trays
- Field reversible hinge design
- Energy Star® 2014 qualified

Freezer
- 2.89 cu-ft (82 L) net freezer volume
- Auto defrost
- Automatic ice maker
- Fast freeze function

Hygiene
- Antibacterial seal

Technical Information
- Dimensions (HxWxD) (cm): 172x70x64
- Dimensions (HxWxD) (In): 67 1/2 x27 1/2x25 1/4
  *Depth is with door handles. (Without handles depth 31 15/16")

Color
BFTF 2715 SSIM: Fingerprint free stainless steel

ENERGY STAR

FEATURES

NeoFrost™ Technology
Certain Beko fridge freezers are equipped with advanced NeoFrost™ Technology, which provides more homogenous, energy efficient and silent cooling. There is no air transfer between the freezer and fresh food compartments. This eliminates odor mixing.

Hygiene+
Present in some fridges is the photo catalyst filter, which eliminates bacteria potentially present in the refrigerator by working in conjunction with the air-cooling systems of the no frost or static models. This ensures permanently high levels of hygiene, protection from bacteria buildup and reduced fridge odor. The carbon filter can be reactivated easily with just one day's exposure to sunlight.

White LED Lightning
The majority of models in the Beko range feature illuminatio with white LED for better aesthetics inside your fridge and less energy consumption.

HygAIR Technology
The exceptional HygAIR Technology, available in select Beko refrigerators, brings the freshness of the pine forests to your kitchen. The technology eliminates airborne bacteria and odor-forming molecules by producing natural negative ions inside the cabinet. The ions capture microorganisms and remove them from the refrigerator via the derfrost process. As a result, your food stays fresher for longer, and you can smell nature in your fridge.

WARNING: When installing the appliance next to a wall, a distance on the
hinge side of 1 inches (24.5 mm) minimum is required between
the appliance and the wall to allow for the door projection when the door is open.

The dimension vary in a range of specified value -40 to +0 depending on the handle type of the appliance
