### Outstanding Features

#### SilentTech (40 dBA)

Quiet talks over after-dinner coffee, book reports written at the kitchen table, movie night in the adjoining room, all made possible by Beko's SilentTech insulation technology. SilentTech suppresses dishwasher noise while extra insulation keeps heat in, for a high energy efficiency combination that really cleans up.

#### AqualIntense

Why is it that your best kitchen creations also tend to be the messiest? Whether it's your cheesiest lasagna, darkest coffee, or other baked-on, dried-on, even burned-on foods, Beko has developed AqualIntense technology to power your dishes clean. Thanks to its power zone of intense water pressure and innovative 180° rotating spray arm with a 360° rotating head, AqualIntense provides up to five times better cleaning performance. So, forget washing your toughest dishes by hand, and start planning your next culinary delight instead.

#### ProSmart Inverter Motor

There's no reason to sacrifice the serenity of your kitchen for a dishwasher cycle. Our advanced ProSmart Inverter Motor that helps power Beko's cleaning is twice as quiet as standard motors. Plus, it saves water and energy, so you can have some peace with your quiet.

#### ENERGY STAR® Most Energy Efficient 2017

Meeting rigorous energy efficiency performance levels set by the U.S. Environmental Protection Agency, Beko dishwashers received the ENERGY STAR® Most Efficient Mark. Beko Most energy efficient dishwashers have average energy savings of 22% and water savings of 36% compared to the federal standard.

### Flexible Baskets

Flexible design allows you to alter your basket configuration and capacity for the most efficient dish loading, according to your daily needs.

#### Flexible Upper Rack

Easy-fold glass supports and height-adjustable mug shelves accommodate different glass heights, mugs and espresso cups, all in one cycle.

#### Height Adjustable Upper Rack

Raise the height of the upper basket to wash large plates below or lower it to accommodate tall glasses.

#### 13" Plate Dimension

Generous interior space allows for plates as tall as 13".

#### Sliding Cutlery Basket

For added flexibility, the sliding cutlery basket can be placed in any position along the front row of the lower rack.

#### Lower Rack Full Folding Tines

Full folding tines at lower basket provides you the required flat space to load your large pots & pans. You wash all your large pots and pans and they are cleaned thoroughly.
